IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

INTRODUCTION

AND

GENERAL INDEX

R. L. POLK & CO., publishers of more than 800 city, county, state and national Directories, present to subscribers and the general public, this, the 1955-56 edition of the Gloucester City Directory, including Rockport.

Confidence in the growth of Gloucester's and Rockport's industry and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gloucester and Rockport to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gloucester and Rockport Directory will fulfill its mission as a source of authentic information pertaining to the cities.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, on white paper, pages 7 to 23 for Gloucester and 362 to 364 for Rockport, presents lists of city, county, state and federal officials, post office information, schools and institutions, with officers, courts holding sessions in the city, population tables, statistical review, and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, on white paper, is included in pages 25 to 231 for Gloucester and 365 to 407 for Rockport. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Gloucester and Rockport, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE beginning opposite page 232, printed on tinted paper in a separate series of pages, contains the advertisements of leading banking, manufacturing, business and professional interests of Gloucester and Rockport. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a great commercial and industrial center like Gloucester, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 233 to 260 for Gloucester and 409 to 416 for Rockport, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 261 to 332 for Gloucester and 417 to 436 for Rockport. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gloucester and Rockport.

The Gloucester Directory Library

Through the courtesy of the publishers of the Gloucester City Directory, a Directory Library is maintained in the Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

GEOGRAPHY

Gloucester is located about thirty miles northeast of Boston, Massachusetts. The original town of Gloucester occupied the whole northern promontory of Massachusetts Bay, known as Cape Ann and was bounded on the north by Ipswich Bay, on the east by the Atlantic Ocean, on the south by Massachusetts Bay and on the west by the towns of Manchester, Essex and Ipswich.

Cape Ann is divided into two nearly equal sections by the Annisquam River, an arm of the sea extending from Ipswich Bay about four miles towards and into Gloucester Harbor. Gloucester of today retains practically its same boundaries and includes the follow-

ing districts: Magnolia, Annisquam, Riverdale, West Gloucester, East Gloucester, Bay View and Lanesville. The northeastern portion of the Cape, however, which was included in the territory of the original town of Gloucester, is separated into what is known as the town of Rockport, the extreme end being known as Pigeon Cove.

The principal harbor is on the south side of the city and is formed by Eastern Point—a strip of unequal width extending in a south-westerly direction about three miles—a rock bound coast that defies the violence of surging waves dashing almost constantly against it, and affording within a safe shelter and anchorage for a large fleet.

The surface of the town is uneven; and its peculiar character strikes every beholder at first sight with astonishment. Bald, rocky hills, bold and precipitous ledges of rock, with acres of boulders of various sizes, in many places scattered thickly over the surface, combine to present a rare scene of naked ruggedness. The small tracts and patches of clear land, by which this view of barrenness is occasionally relieved, are covered with a strong and fertile soil, suited to the growth of most of our New England agricultural products.

The rocks of Cape Ann are granite, of a beautiful, dark color and are easily wrought into blocks of any needed size. Quarries formerly operated in different localities, several at Rockport, at the lower extremity of the Cape; others at Lanesville and at Bay View—suburban districts of Gloucester proper. The products of these quarries in the form of monuments, decorative ornamentations, paving blocks, etc. have been shipped to every part of the world.

In all, Cape Ann is picturesque. It is truly typical of the rock bound coast of our northern Atlantic States. A drive around the shore road from which an open view of the ocean is afforded practically throughout the entire route, presents a picture of rugged rocks dashed over with spray, these interposed with as many as forty beaches of various sizes around the entire Cape. The drives around Cape Ann are pretty. The inland roads through wooded sections of hard-wood growth give a touch of country life in sharp contrast to the rugged scenery along the shore.

HISTORY

From the time of the early explorers Gloucester, Mass., has occupied a large place in the history of New England and the nation. It is claimed that the Norsemen in 1001 skirted the New England Coast, which they called New Vineland and landed here. It has also been said that they called the place "Kroasnes", the Cape of the Cross; that they were attacked by the Indians, their chieftain, Thorwald, being killed and buried on shore. In 1605, as authentically recorded, Champlain, on a voyage of exploration and discovery sailed about the cape which he named CAPE AUX ISLES.

The next year in early September he founded what is now Eastern Point and came

to anchor in the inner harbor between Five and Ten Pound Islands—so named for the sums for which they were purchased from the Indians in Colonial times. Champlain was charmed with the place and made a prolonged stay. His name for it was singularly appropriate, "Le Beau Port", the Beautiful Harbor.

After Champlain's departure came Captain John Smith and Miles Standish with his company of followers. The honor of making the first settlement, however, which was also the first permanent settlement in Massachusetts Bay, belongs to the Dorchester Colony, a company formed by the Rev. John White, a Puritan minister, rector of StPeter's church of Dorchester, England. His colony sailed for and reached what is now Gloucester in 1623, not, as had been supposed, for the purpose of escaping religious persecution. Its real object was the pursuit of the fisheries which had been successfully carried on off the New England Coast since 1606. The site of the first settlement was at Stage Fort, now a public reservation known as "Stage Fort Park", where their landing is suitably commemorated with a bronze tablet which bears an inscription telling the story of their original landing.

In 1624 Roger Conant was appointed Governor and the Colony attracted much attention. Its interests were concerned entirely in fishing and farming. The fisheries were successfully pursued and good catches sent to Balboa, Spain, but the arable land of the Cape was exceedingly limited. This latter fact resulted in the agricultural part of the colony moving to Salem. Those remaining, however, were joined by others from time to time, among them being a colony from Plymouth in 1630. In 1632 the first church was built and services held. In 1639, the General Court was asked to incorporate the town. A charter was granted in 1642, the town taking the name of Gloucester from the cathedral city in England, whence many of the early settlers came.

The history of Gloucester is entwined with events of national importance. It tells us the story of the expedition against Louisburg, the Gibraltar of America,—how these men, in a craft commanded by Captain Sanders and in a land company under Captain Byles, gave splendid service in reducing that stronghold; they were with Wolfe at Quebec and were in the foreground when the flag of France was lowered for the last time on the American Continent. In the Revolutionary War, the Civil War, in the Spanish American War and in the World War, the call to arms has ever been answered by the population of this fishing city. Their services have been rendered on land and sea and they have left behind a record of which any community may well be proud.

FISHERIES

Destiny ordained that Gloucester should be the first and greatest fishing port in the New World. Back as far as 1602, that daring navigator, GOSNOLD, found that codfish were plenty in Massachusetts Bay and for twenty years before a permanent settlement was made here, the fisheries were pursued off this coast with profit. Destiny also took a hand when the Dorchester Company set out from England in 1623 to engage in a fishing trip

and also to found a permanent colony. The ancient records tell us that the expedition had no definite place in view for settlement and that arriving late in the season at the fishing grounds on the Maine coast, finding the fishing poor and in hopes of making up a full fare, the voyage was continued to Massachusetts Bay. Our first colonists, therefore, were fishermen and the first business of the place was fishing.

With the exception, possibly, of a very few years immediately following 1626, the fisheries have been followed from this port throughout all these 300 years, practically without interruption. Its history is a fitting story of a hardy race of fisher folk, who have ever braved the call of the deep in the pursuit of their industry which today ranks as the oldest in Massachusetts. It teems with stories of self-sacrifice and valor. It has been a costly industry, however. Braving the storms and perils of the ocean in seeking their existence, scouring the seas almost to the Arctic Circle in their perilous quest, at the mercy of the storms and the heavy fogs, the treacherous shoals and drifting boats, over 8,000 of these men have been sacrificed in this perilous calling.

The name of Gloucester has been associated with the curing, catching, packing and distribution of fish since its early settlement in 1623. This industry may truly be said to be the corner stone upon which the city's prosperity and reputation has been based, although at the same time other pursuits have gained ground and prospered.

"Gloucester now has 26 firms engaged in handling and processing fish. It has upwards to 200 vessels of from 5 to over 100 tons gross engaged in off-shore fishing, and more than 100 under 5 tons gross engaged in in-shore fishing and lobster fishing. Crews of Gloucester fishing vessels total more than 2,200. The total number employed in shore plants varies from 1,400 to 2,500 during the peak production season.

Gloucester has a State Fish Pier which started operating early in 1939, located at the foot of Parker Street and overlapping Five Pond Island. It has a modern cold storage plant with a capacity of 7,500,000 pounds. This pier is equipped to engage in an extensive fresh fish business. Individual stalls are rented to operating firms.

Landings of fresh fish at Gloucester increased from 44,699,000 pounds in 1937, with a value to fisherman of \$861,728, to a total of 232,000,000 pounds in 1954, with a value to fishermen of \$8,250,000.

In recent years Gloucester has been the largest producing port of edible fish food in the country. It is primarily a fish processing port. About 90% of fish landed is filleted and frozen. There are 6 firms engaged in processing cooked fish products, principally fish sticks and bite-size codfish balls.

MANUFACTURING AND LOCAL INDUSTRIES

Gloucester has many other industries aside from the fisheries but one directly connected with these, is the manufacture of liquid fish glue. The ancient Greeks and Romans knew that a strong adhesive could be extracted from the skins of certain fish, and used this adhesive for such delicate purposes as fastening precious stones in their setting. Fish glue, however, was made in very small quantities and had to be used immediately. It was

not until the last century, sometime between 1870 and 1875, that liquid glue was made a commercial possibility by the discovery of means whereby it might be permanently preserved in liquid form.

Formerly, quarrying of granite was a very important industry. In recent years, quarries at Rockport have been closed, and the industry there is concerned principally at the present time in the cutting of granite pavement blocks.

Awnings, barrels, boats, bread, castings of iron and brass, cigars, codliver and vitamin oils, copper, marine and house paints, dip nets, drop forgings, fish—fresh, salted, smoked and canned, fishlines, fish meal, fishing tackle, fish-traps, glue, granite, ham-mocks, hawsepipes, inks, iron forgings, iron-work for vessels, machinery for cold storage, masts, men's, women's and children's clothing, mucilage, nets, overalls, pants, paste, pastry, patent bits, patent steering wheels, porch dresses, printing, protective outer clothing, rudder braces, sails, seines, sheeplined coats, ships' blocks, smokestacks, spars, steel forgings, stove polishes, street dresses, tanning oils, tents, traffic signs, trawl nets, truck bodies, ventilators, vessel steerers, windlasses for vessels, wooden boxes and drums, yacht steerers.

While Gloucester is situated far from the sources of supply of some raw materials, it has several advantages over inland cities. For instance, the city is on the sea coast where it can obtain various supplies direct by water, at a cheaper rate than by rail. It is located on the Boston & Maine Railroad, with a schedule of sixteen trains daily to and from Boston. Route 128, opened to traffic in 1953 with a high-level bridge over the Annisquam River, now provides Gloucester with a modern double-barreled scenic highway connecting with Routes 1, 2, 3, 9, 15, 20 and with other major highways, thus affording rapid truck transportation to New York points and beyond.

SUMMER COLONIES

The whole of Cape Ann is an ideal resort for the summer tourist. Its admirable location, surrounded practically on every side by the open sea, its magnificent summer climate, never extreme on the hottest days in summer; its natural rugged beauty; its many beaches, both large and small; its pretty inland roads through hard wood groves; its splendid summer cottages and hotels; all combine to make Cape Ann a splendid summer home for those who wish to escape the monotony of city life. Gloucester has long since taken its place as the ideal summer resort. To point out any particular charm it may hold for the summer visitor is difficult, for the attractions are many and of sufficient varieties to satisfy the most exacting critic.

It combines within a radius of one-half dozen miles practically every type of natural scenery found anywhere. Its picturesque harbor wharves, inspiring in thought the 300 years of struggle with the sea that its fishermen have endured in the pursuit of its industry; its many boats entering and leaving the harbor in plying their trade; its foreign fishing colonies,—those of the Italian and Portuguese; its beaches and parks; combine to make Gloucester ideal to the tourist.

CHURCHES

Church influence is strong in Gloucester, many social and welfare activities centering in the church organizations, of which there are twenty-five in the city. The first church was organized in 1632.

There are over ninety clubs and fraternal organizations in the city, including the Woman's Club, Rotary Club, The Kiwanis Club and the Gloucester Chamber of Commerce.

Good government, good roads, good schools, congenial social conditions, a high standard of citizenship, convenience to shipping points, nearness to a market, excellent transportation facilities, abundant recreational and amusement facilities, the advantages of homes in the open spaces combined with urban conveniences—these are the qualities that go to make a city desirable—and Gloucester has them all.

ROCKPORT

Rockport, or Sandy Bay, as the town was formerly called, was a part of Gloucester until 1840 when it was incorporated and set up its own town Government. Like Gloucester, its inhabitants early engaged in the fishing industry, but not possessing the facilities for large vessels the pursuit of this industry has been largely confined to the shore fisheries, the trapping of lobsters forming the major portion of the business as carried on today.

Rockport granite is known the country over and the quarries at Rockport, Pigeon Cove and Bay View have produced many

thousands of tons of this valuable stone and have furnished employment to several hundred workmen. The industry dates from about 1823, when the quarries were first worked, and has furnished granite for government fortifications and navy yards, Boston Custom House Tower, Woolworth Building in New York, and Brooklyn Bridge.

The summer colony has grown considerably in the last twenty years. A cleaner and more wholesome town in which to spend the summer cannot be found in New England. There are a number of good beaches, a beautiful shore drive, and the ocean scenery is unsurpassed. Many artists make their homes here during the summer months and find interesting subjects to transfer to their canvasses along the quaint old wharves and rugged shore.

The breakwater erected by the government has given Rockport a safe harbor, available for large vessels of all types, and the town is often visited during the summer by some of the fleets of United States Warships.

GLOUCESTER CHAMBER OF COMMERCE

The Gloucester Chamber of Commerce is organized for the service of the public and for the promotion of the business and industrial growth of the community. Further information regarding manufacturing opportunities, business facilities and residential advantages, will be gladly supplied upon request by the Gloucester Chamber of Commerce, 120 Main street.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

HOW TO USE YOUR CITY DIRECTORY

Locating Missing Heirs

Finding Lost Persons

**THIS IS ONLY ONE OF THE MANY OFFICES THAT A
MODERN DIRECTORY SUCCESSFULLY FILLS**

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

FACTS!!

ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted —
“User Circulation.”

To be exact by actual survey in twenty-four average American cities, by actual count, each City Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand Directories sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore —

$$1000 \times 3\frac{1}{2} \times 305 = \mathbf{1,067,500}$$

¶ *The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.*

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5

A *Statistical and Historical Story* of your city; plus miscellaneous other information.

Typical Questions

Your City Directory
Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?
What is his middle initial?
Is he married? What is his wife's name?
Where does he live?
Does he own his home or rent?
Has he a telephone?
Who are his neighbors?
What does he do for a living?
Where does he work?
Is he the "head of the house" or a resident?
Does he own a business? Is he a member or officer?
Who else is in the same business or profession?
Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?
What are the latest population figures?
What is the latest statistical and general civic information?
What are the leading industries and activities of the city?
What are the names and locations of the schools?
What are the churches and where located?
Who are the pastors of the churches?
What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?
Who lives at a given address?
Is there a telephone at the address or nearby?
What is the character of the neighborhood?
Is it a "home-owners" section?
What is the nearest street corner?
What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
Where are the public and office buildings?
If it is a business location, what business?
If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?
What is the correct name and address?
Is it a Proprietorship, Partnership or Corporation?
Who are the partners, owners, or officers?
Who else in same or similar lines?

GLOUCESTER STREET AND HOUSE DIRECTORY 1955-1956

Copyright, 1956, by R. L. Polk & Co.

Giving the location of Streets, Avenues, Places, Parks &c, showing what other streets and places run from or across them, and with a list of Householders and Places of Business arranged in Numerical Order upon their respective Streets.

The Streets are arranged in alphabetical order with the location of Intersecting Streets clearly shown.

The symbol © following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Places of Business are indicated by bold face numbers and business being given.

The ♠ preceding names denotes householders and places of business having telephones.

*Denotes houses incorrectly numbered.

† This symbol placed before a listing denotes inability to get complete information by personal call, telephone or mail.

The Return Circuit in Advertising

The circuit must be completed before the bell will ring.

The Buyer must find the Seller before a Sale is made.

CREATIVE ADVERTISING—in newspapers, magazines, billboards, etc., tends to suggest wants and to create desire.

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

THIS DIRECTORY is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

HAVE YOU MADE IT EASY FOR BUYERS TO FIND YOU?

YOUR CITY DIRECTORY

Is Something More than—

A Book of Names and Addresses

A Catalogue of Trades and Professions

A Street Guide

It is A Service that brings you daily in closer touch with your customers and friends

It Enables You to address them each and every one
To avoid the offense of incorrect spelling and addressing

To find new customers

To tell who lives in any house in the city

To find local sources of supply for hundreds of articles

It Will Save You time and money both in buying and selling. It will make you more efficient and protect your standing as an accurate and progressive business man

Your directory gives you an accurate bird's-eye view of your city, its institutions, inhabitants, government and buildings

Always Use the Latest Edition

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

Accurate Information is worth all it costs

IT PERFORMS A PUBLIC SERVICE

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

STREET AND HOUSE DIRECTORY
1955-1956**

Copyright, 1956, by R. L. Polk & Co.

Giving the location of Streets, Avenues, Places, Parks &c, showing what other streets and places run from or across them, and with a list of Householders and Places of Business arranged in Numerical Order upon their respective Streets.

The Streets are arranged in alphabetical order with the location of Intersecting Streets clearly shown.

The symbol © following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Places of Business are indicated by bold face numbers and business being given.

The ♠ preceding names denotes householders and places of business having telephones.

*Denotes houses incorrectly numbered.

† This symbol placed before a listing denotes inability to get complete information by personal call, telephone or mail.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

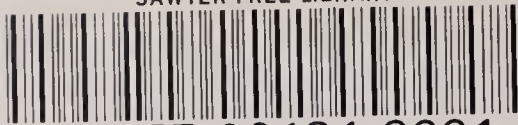

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
